

GLOBAL PRECISION™

NEW PRODUCT DEVELOPMENT & MANUFACTURING PARTNER

TOOLING - MOULDING - SECONDARY OPERATIONS - ASSEMBLY - PACKAGING

UK Management, Communication and Assurance
European Standard and Quality
Far East Efficiency, Capacity and Cost.

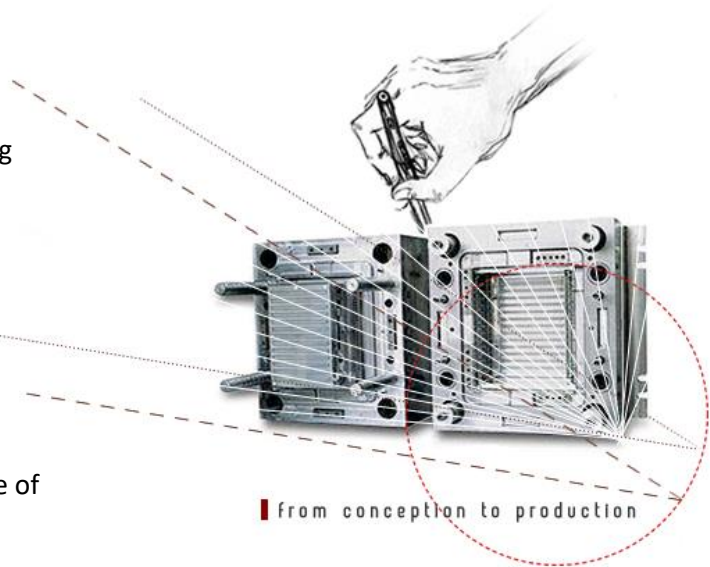

Our highly experienced team of engineers will take your new product to manufacture.

We'll support with Design for Manufacture and optimisation and provide cost effective tooling and moulding solutions from low volume or pilot tooling through to high volume manufacture.

We offer a complete fulfilled solution including electronics manufacture, printing, assembly and packaging.

There are no limitations! We can support with CNC machined parts, metal castings, blow moulding, extrusion, compression moulding and even fabrics.

Please contact one of our team to discuss the range of processes and services we offer to make manufacturing as pain free as possible for you.
